

JudE – Nurses Notes

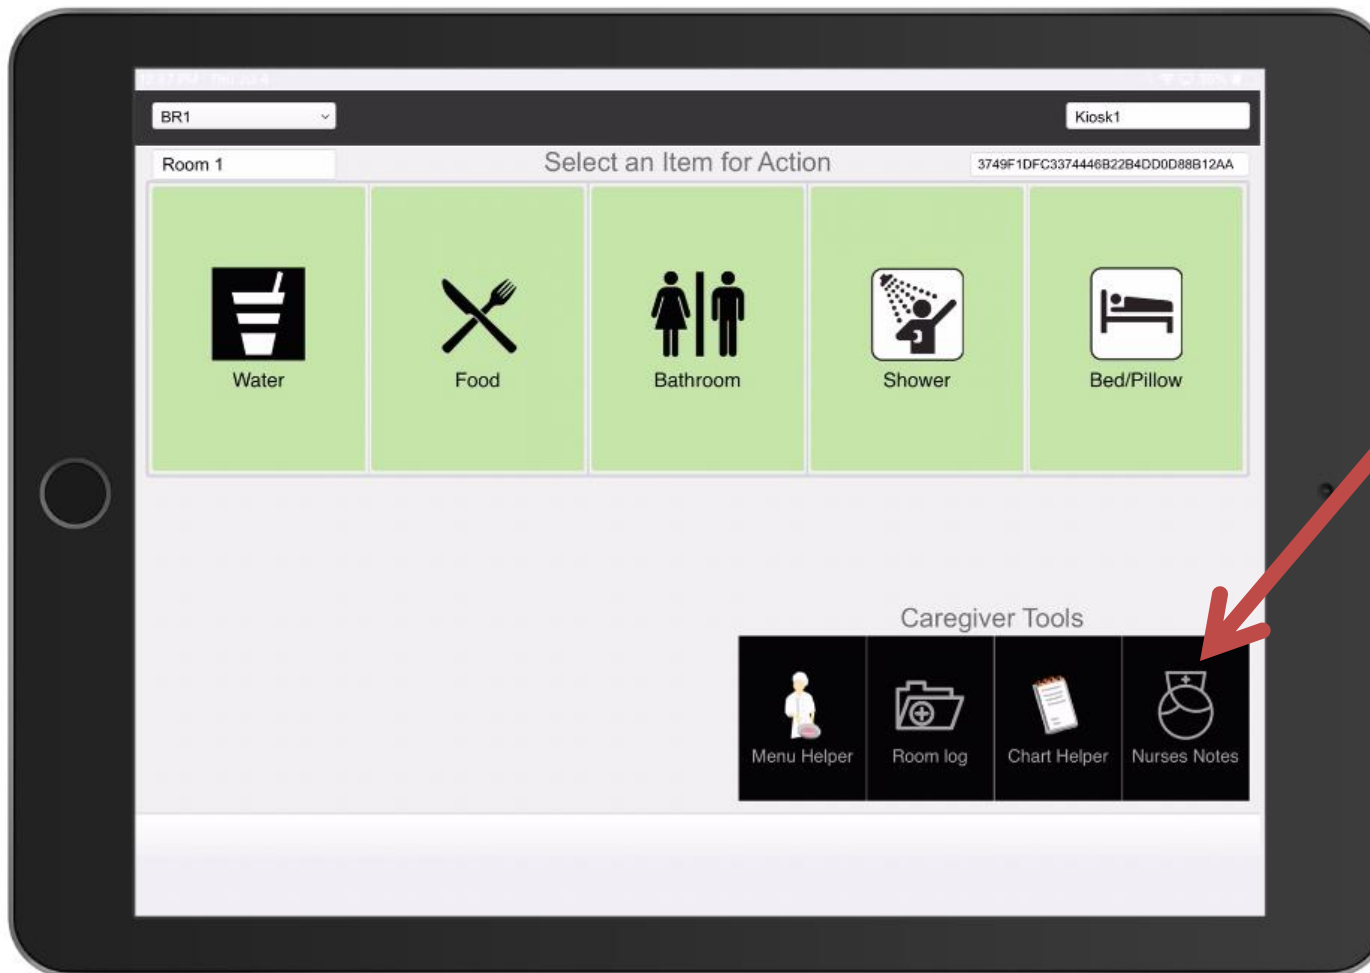

JudE Objective: Improve the care experience, care responsiveness, and care peace of mind -- for patients, caregivers, facilities, and family members -- *by leveraging modern and mobile technology to improve the notification, workflow, and resolution of patient, caregiver and facility requests.*

Nurses Notes

- Available under Caregiver Tools on the Room Kiosk

Nurses Notes

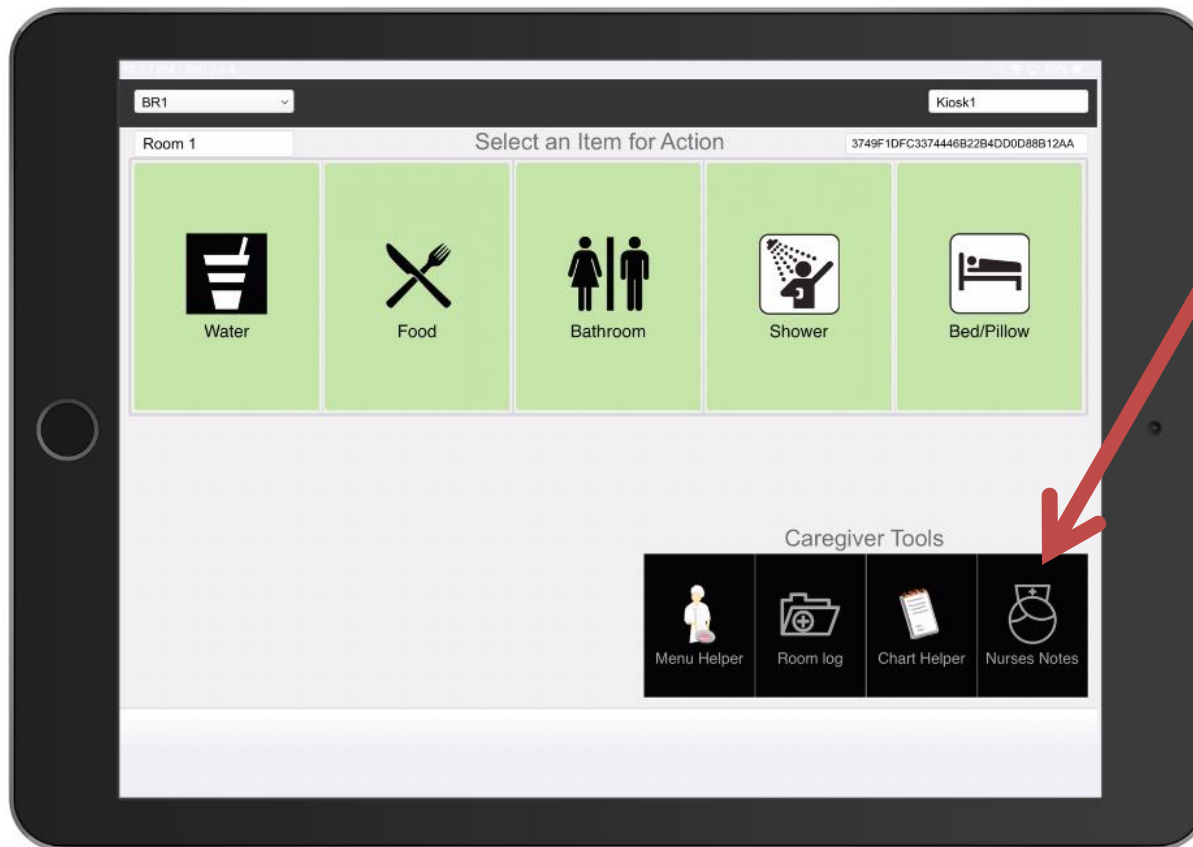

Basic Steps

- Caregiver presses “Nurses Notes” icon from the Room Kiosk, and the Caregiver “Signs In”
 - All Caregivers will be assigned a unique ID & Passcode
- The Nurses Notes screen will guide the Caregiver through capturing relevant information
 - The Caregiver can also take a secure picture with the Room Kiosk.
- Touch the “OK” button to save a Secure Note that only Nurse/Approved Staff can open
- A generic SMS text will be sent to the Nurse/Approved Staff alerting them that they have a new Nurses Note to review
 - Nurses/Approved Staff must have the App installed on their device to access notes and pictures
- Opened Notes expire and delete within the determined time set by the facility (up to 48 hours)

Nurses Notes

- Caregivers can capture Relevant Information to send to the Nurse/Approved Staff

The screenshot shows the 'Nurses Notes' application interface. At the top left is a '<<Back (Cancel)' button. Below it are three input fields: 'Room:' with 'BR1', 'Caregiver:' with '3405', and 'Date/Time' with '7/17/2019 7:20:46'. To the right of these is a 'NoteCategory' dropdown menu currently set to 'Question'. Below the input fields is a 'Get Image' button. To its right is a large image placeholder showing a close-up of a patient's skin with a red, irritated, and scaly lesion. Below the image is a text area labeled 'Notes:' containing the text 'I have a question.'. At the bottom left is a 'Send To Nurse' button. Red arrows point from the text on the right to the 'Get Image' button, the 'NoteCategory' dropdown, the image placeholder, the text area, and the 'Send To Nurse' button.

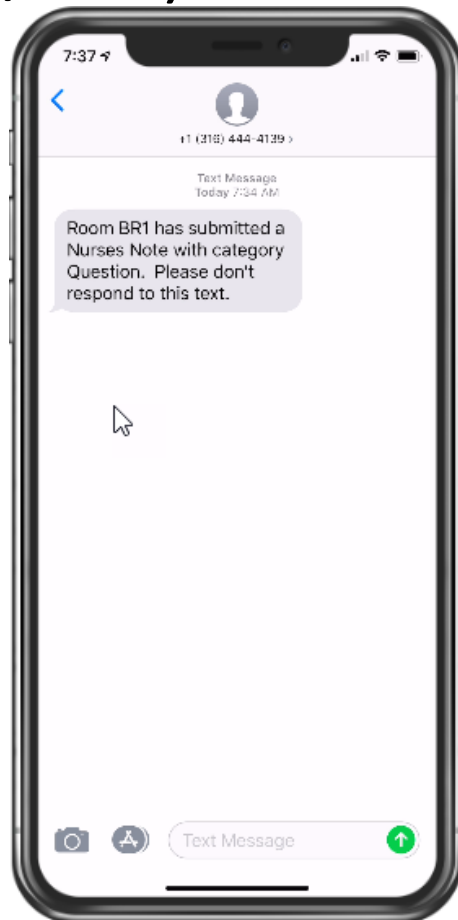

- Click the “Get Image” button to take a secure picture with the Room Kiosk
- Enter the “Type” of note being sent:
 - Question, Status, Follow-up
 - Can be customized by the facility
- Enter optional manual notes or questions if desired
- Click the “Send” button

Nurses Notes

- Clicking “Send to Nurse” notifies the Qualified Staff (e.g. RN/LPN) with a Generic Text Message

Nurses Notes

- Nurses must have the App installed on their own device to access Notes/Pictures. Otherwise, they will receive a notification of the Note/Picture through generic SMS text but will not have the ability to open it. The Nurse would instead need to access the Note/Picture through the Nurses Station/Central Monitor by entering their credentials.

GoTo Room Status			
RoomID /Created	Status	Caregiver / Note Category	Note Open / Expire
BR1 7/17/2019 7:20:46 AM	Opened Open Note	Michelle Question	7/17/2019 7:44:56 AM 7/18/2019 7:44:56 AM
RM1 3/13/2019 8:14:25 AM	New Open Note	Michelle Question	

- When the Nurse/Approved Staff logs in to their device, they will go straight to their work queue showing notifications of Notes/Pictures
- They can see new notes or notes that have already been opened but not yet expired
Press "Open Note" to see the details, which also starts the clock for expiration.
- If not logged on with a Nurse device, the user will be prompted for credentials.

Nurses Notes

- Nurses (Qualified Staff)

- The Nurse/Qualified Staff can view the Note Details and Pictures
- Again, once the Note/Pictures are opened, the note Expiration Timer Begins

Nurses Notes

Recap

- Through the functionality of the Nurses Notes...
 - Caregivers can conveniently capture Notes, Questions or Pictures for other Qualified Caregivers on staff, such as a RN or LPN to view
 - Only Qualified Staff can open and view the notes
 - Once opened, an Expiration Date will be set on the note
 - Once the expiration date has passed the note will be Permanently Deleted
