

# JudE - Technology

JudE Objective: Improve the care experience, care responsiveness, and care peace of mind -- for patients, caregivers, facilities, and family members -- **by leveraging modern and mobile technology to improve the notification, workflow, and resolution of patient, caregiver and facility requests.**

# Modern Technology

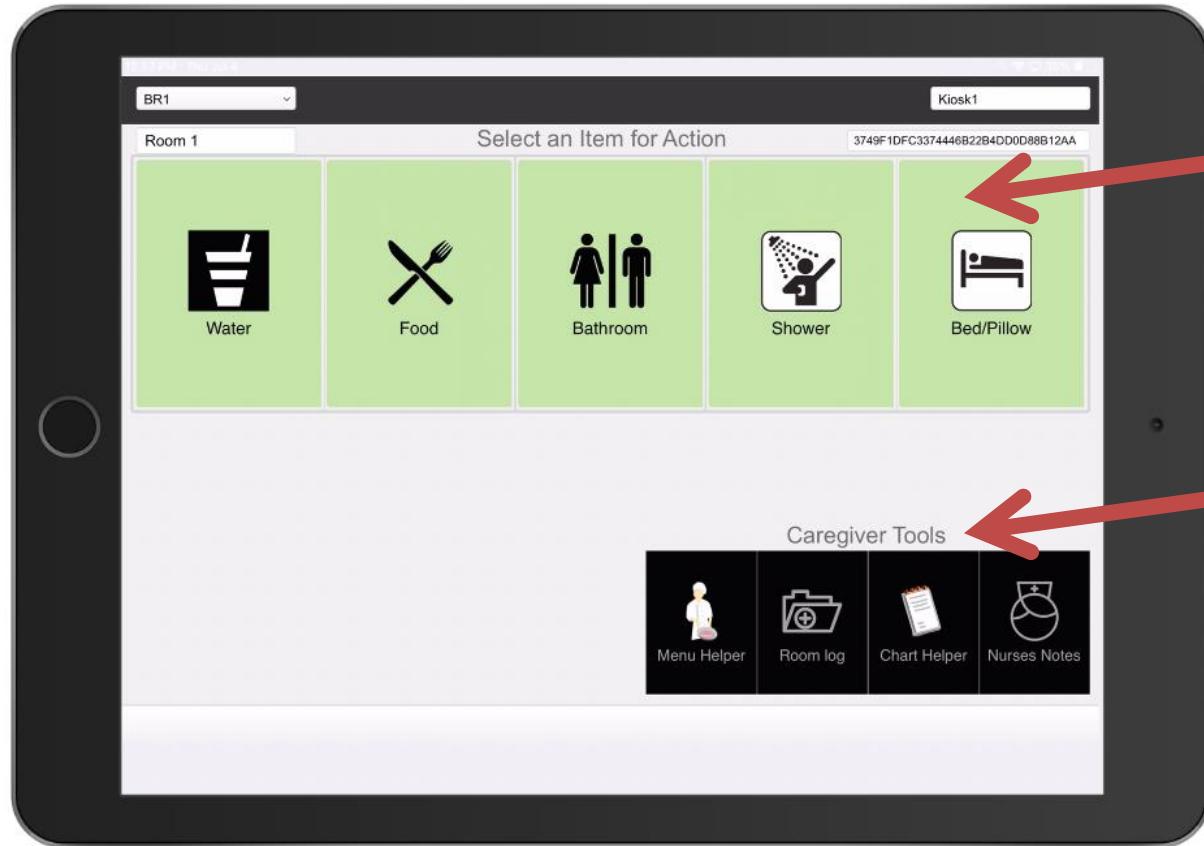

- Cloud Software as a Service for simple install and simple support
- Kiosk in the patient's room with an easy to use iPad application
- Central database keeps track of all the activities for all the rooms
- Central application allows facilities or nurses to view a facility room block at a glance
- The central database can also facilitate instant notifications to caregiver's mobile devices

# The Room Kiosk

- It all starts with the iPad Kiosk

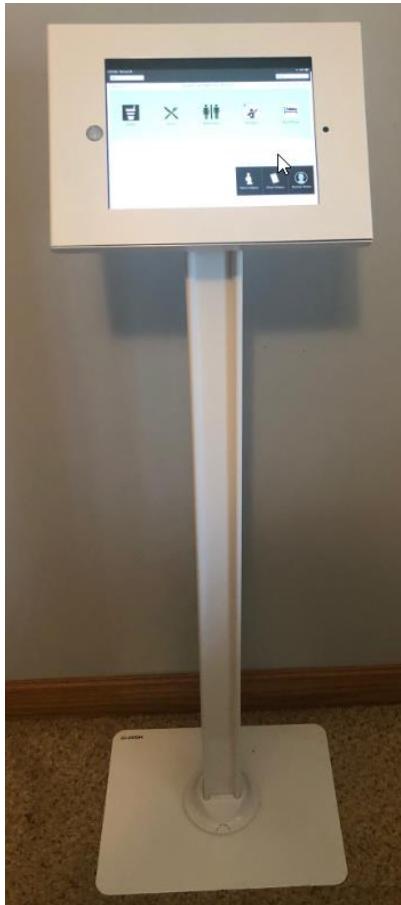

- Patients or caregivers can interact with icons at the top
- Caregivers have additional functionality with the icons at the bottom

# The Room Kiosk

- The Kiosk can be mounted on the wall, on an arm, or a portable stand that can be positioned by the bed, or anywhere in the room.

# The Central Monitor

RoomID	Device	Connected	Last Connected	Current Request	Open Time	Last Request	Time to resolve
001	Ipad Mini Kiosk	Disconnected	3/22/2019 5:47:52 PM	Good. No Request	0:00:00	Water	0:00:15
BR1	Dennis' Laptop	Disconnected	6/15/2019 1:31:26 PM	Good. No Request	0:00:00	Food	0:00:07
BR1	Kiosk1	Connected	7/4/2019 1:01:32 PM	Good. No Request	0:00:00	Water	0:00:01
BR11	Dennis' iPhone	Disconnected	7/20/2018 9:03:19 PM	Good. No Request	0:00:00	Bed/Pillow	0:00:16
K1	Admin Desktop	Connected	7/4/2019 1:14:59 PM	Good. No Request	0:00:00	Water	0:00:11
K1	Dennis' iPhone X	Disconnected	3/9/2019 6:49:33 PM	Good. No Request	0:00:00	Food	0:00:15
K1	App - Dennis'	Disconnected	6/28/2019 11:22:04 AM	Good. No Request	0:00:00	Bathroom	0:00:27
RM1	Kiosk1	Disconnected	3/13/2019 8:21:36 AM	Good. No Request	0:00:00	Food	0:00:15
RM2	Kiosk 3 Mini	Disconnected	9/17/2018 3:33:38 PM	Good. No Request	0:00:00	Food	0:00:13
RM2	Kiosk 2 Mini	Disconnected	11/17/2018 10:12:39 PM	Good. No Request	0:00:00	Bathroom	0:01:20

- Can be a computer monitor or connected display (TV)
- This is one of the views that shows status for a block of rooms at a glance

# Other Mobile Devices

- Mobile phones can receive text messages.

- Messages from the app are kept generic. No Personal or Identifiable information is sent.
- The text feature is optional, however JudE can send texts to one or many phone numbers depending on your staff and communication needs

# App and Data Security

- The application and database requires multifactor authentication.
  - As with online bank access, first a device must be registered to access the app or database. Additionally, an Admin must accept each specific device.
- Devices are assigned specific functions. Any device other than a room Kiosk has additional login/password required
- Even on the room Kiosk, other than patient requests, all other functions require a user electronic signature / PIN to complete.

# App and Data Security

- The data itself is encrypted on the device, in transit and at rest in the database.
- The database / servers are in Amazon Web Services – which have world-class security

# Data Purging

- The JudE app and database is intended to groom and purge data frequently.
- JudE is NOT intended to replace recording and logging into your patient data or compliance system.
- Use JudE to assist with the daily tasks and to help recall information to put into your formal tracking system.
- Various app data can be configured to purge between 1-30 days. Once purged, the data cannot be recovered.

# JudE Deployment

- No onsite servers.
- Low investment onsite setup. Equipment is simple iPad kiosks and optional PC's and monitors for nursing station (nursing station and admin functions also available via iPad)
- Facility/Site specific app configuration can be done with very little IT Knowledge
- JudE team can do and support virtually all app configuration setup and support without coming onsite
- Bug fixes and new features can be available automatically without the JudE team coming onsite

# JudE Technology

## Recap

- Modern Technology
- Fast and Inexpensive to deploy, and support
- Patients, Caregivers, and Facilities will love the helpful functionality to improve their Experience, Efficiency and Effectiveness
- See other videos for screenshots and application functionality overviews
